BASIC-ABSTRACT:

Ginkgo tea is compounded with ginkgo leaf, gynostemma pentaphylla general glycoside, instant tea and Stevia essence in certain proportions. The production includes the technological processes of eliminating mouldy leaf and impurity from ginkgo leaf; washing, stoving and crushing ginkgo leaf; dissolving gynostemma pentaphylla, general glycoside, instant tea and Stevia essence in a stainless steel cylinder, and spraying the solution onto crushed ginkgo leaf, stirring in a mixer stoving sprayed ginkgo leaf; and packing and disinfection. With the health functions of reducing blood lipoid and being capable of preventing and curing hyperlipaemia, arteriosclerosis and cardiac and cerebral vascular diseases, the present invention is an excellent health beverage.
